### All that Glitters

#### This season's must have party looks

Sequins are back in a big way for autumn winter 2010, and whilst the fashionista's are drawing over the fabulous Alberta Ferretti sequin dress, fear not a catwalk look can be achieved on the smallest of budgets!

As a fashion stylist and personal shopper, I work with clients to find a look to suit them and their budgets and I have trawled the shops and edited the best from the High Street.

This season's alternative to the LBD is a show stopping sequin number from French Connection, £190. This gorgeous dress can be worn bare legged with strappy sandals or for a dressed down look, team with black opaque tights, suede over the knee boots, a simple boyfriend cardigan and a tan leather belt!

Clients are often asking me to find them fashionable cover ups, this season there is an abundance of great styles, Coast has some simple knitted versions, but for those of you looking for that extra sparkle this sequin bolero from Oasis is absolutely gorgeous and incredibly versatile. Wear it with jeans for a casual look or over an evening dress for added glamour.

Finally, why not update last years little black dress with a great sequin scarf, studded belt or a sequin clutch and shoes.....the options are endless!

Sequin Dress, £190, French Connection
